Art of Automation.

ARNON IS UNIQUE SERVICE

Our slogan Art of Automation tells that we are passionate and enthusiastic on what we do. When Automation is used cleverly and innovatively as a tool to solve real problems and tasks, and it is implemented professionally, it can be great, like art. This way we can be proud of what we do, and our customer gain the best possible results from what automation can offer. As our customers partner we aim for boosting their success through comprehensive, skilled and flexible service.

**THIS IS THE STANDARD GUIDING OUR
ACTIVITIES, AND IT IS OUR PROMISE TO

OUR FIELDS OF EXPERTISE

WE PROVIDE COMPREHENSIVE INDUSTRIAL ELECTRIFICATION AND AUTOMATION SOLUTIONS TO OUR SELECTED CUSTOMERS - MACHINE, EQUIPMENT AND SYSTEM PROVIDERS IN ENERGY, MINING, MARINE AND PROCESS INDUSTRIES. WE HAVE A PROFOUND KNOWLEDGE IN THESE INDUSTRIES - THAT'S WHY WE ARE ABLE TO CREATE SOLUTIONS THAT TAKE ALSO YOUR FUTURE CHALLENGES INTO CONSIDERATION.

PROCESS INDUSTRY expects high availability, efficient controls, and on-line monitoring from multiple locations simultaneously. ARNON's comprehensive capability to deliver demanding electrification and automation solutions, as well as connectivity between different equipment and to cloud services, makes us a unique player in the industry.

MINING & MINERAL PROCESSING represents a demanding process industry segment in challenging environments. Remote connections and operation are the next big step towards better safety and productivity. ARNON can deliver reliable, proven solutions all the way from sensor to cloud to mines and minerals processing plants.

MARINE OPERATIONS leave no room for compromises in reliability. Performance of the equipment is constantly monitored remotely from multiple locations. ARNON has been part of this development since the very beginning with the leading companies of the industry, and we have developed our own unique technology specifically to the needs of the marine industry.

ENERGY PRODUCTION requires high availability and good cost/performance ratio. The plants must be driven effectively regardless of the operators skills. Reliable and intelligent automation enables that. As a partner, ARNON can help machine, equipment and system providers offer that to their clients. Be it instrumentation, electrification, automation, data acquisition or cloud services - we do it all.

AS OUR CUSTOMER:

**YOU GET YOUR
EQUIPMENT DATA
TO CLOUD IN ONE STOP**

**YOU STAY
AHEAD OF
THE GAME**

**YOUR BOTTOM LINE
WILL LOVE OUR
SMART SOLUTIONS**

TAMPEREEN KESKUSTEKNIikka IS NOW ARNON. ARNON HAS SERVED ITS CUSTOMERS FOR ALMOST FOUR DECADES; TAMPEREEN KESKUSTEKNIikka WAS FOUNDED IN TAMPERE IN 1978.
